

Design Rules

The maximum allowed conductor trace width with the minimum conductor trace spacing, depending on the respective copper thickness (in μm)

Inner layers		Outer layers		
Copper thickness	Min. conductor width / Min. spacing	Copper thickness	Final thickness Cu	Min. conductor width / Min. spacing
–	–	5	30	75
–	–	12	37	100
18	75	18	43	100
35	100	35	60	150
70	150	70	95	200
105	200	105	130	300
