Work day (WD):		2	3	4	5	6	7	8	9	10
POOL servis		x	100 %	50 %	0%					
Prototypes	1 - 2L, 0 - 0.5m ²	200 %	100 %	50 %	0%					
Prototypes	4 - 8L, 0 - 0.5 m ²	x	100 %	50%	0%					
Prototypes	10 - 16L, 0 - 0,5 m ²	x	x	x	100%	50 %	0%			
Small batches	1 - 2L, 0.5 - 2 m ²	x	x	x	200%	100%	50 %	0%		
Small batches	4 - 8L, 0.5 - 2 m ²	x	x	x	200%	100%	50 %	0%		
Small batches	10 - 16L, 0.5 - 2 m ²	x	x	x	x	x	x	100%	50 %	0%
Special technologies	via-filling via-filling, type-VII	every batch of 12 panels (about 1.2 m ²) add 2 WD extra to standard								
Special technologies	controlled imedance / IPC class 3 / AS9100	technologies add extra 2 WD for production								
Special technologies	sequential lamination	every sequence doubles the standard delivery time = individual offer has to be proceed								
Special technologies	flex, RF 0 - 0.3 m ²	standard delivery time 12 WD				for express production individual offer has to be proceed				
Special technologies	flex, RF 0.3 - 1.2 m ²	standard delivery time 15 WD				for express production individual offer has to be proceed				
Special technologies	flex, RF + 1.2 m ²	individual offer has to be proceed								
Serial production over 2 m ²	8 - 16 V	minimum 15 WD for pduction = individual offer has to be proceed								

Production times are not guaranteed, individual offer is preferred.

ADVANCED – boards with ten or more layers or boards with following technologies: controlled impedance, via filling, sequential lamination, IPC class 3.

If we recieve offers before 9:00 a.m. we count that day as a first WD.
